OBJECTIVE

Early-career AI, Data & Full-Stack Builder combining 20 months of mechanical production engineering with hands-on software/data internships and technical execution roles, now specializing in Data Science and Generative AI. Skilled in SQL, Python, Power BI, and machine learning to analyze complex datasets, build predictive models, and develop AI-driven applications using modern **Vibe Coding and AI Agentic Development** methodologies. Strong analytical thinker focused on solving business problems through data-driven and intelligent solutions to improve decision-making and operational performance.

SKILL MATRIX

Programming & Querying:	SQL, Python (Pandas, NumPy, scikit-learn)
Data Analysis & Visualization:	Power BI, Microsoft Excel, Tableau, Matplotlib, Seaborn
Machine Learning & AI:	Machine Learning, Data Preprocessing & Feature Engineering, Model Evaluation, Natural Language Processing, Generative AI & LLM Integration, Prompt Engineering
Vibe Coding & Modern Web:	AI Agentic Development, Cursor AI, Claude 3.5 Sonnet, Next.js 15, TypeScript, Supabase (PostgreSQL with Row-Level Security), REST APIs
Tools:	Git & GitHub, Docker, Vercel Edge Deployment

WORK EXPERIENCE

Hey Concrete 05/2026 – 07/2026
Technical Executive
- Supported AI tool implementation across HR, Accounts, Sales, Social Media, Graphics and Content.
- Assisted in development and testing of AI Complaint Management System.
- Contributed to HeyOne.Ai platform to unify AI tools for employee productivity and workflow automation.

Access Million 04/2025 – 10/2025
Data Analyst Intern
- Analyzed business and customer data using SQL, Excel, and Python.
- Cleaned and transformed datasets to improve reporting accuracy.
- Built Power BI dashboards to track KPIs and performance trends.
- Delivered insights to support data-driven decision-making.

Codeshastra Pvt Ltd 10/2023 – 04/2024
Full Stack Developer Intern
- Contributed to development of “Hamari AI,” an AI tools platform.
- Integrated AI APIs for chat, speech-to-text, and automation features.
- Built responsive UI and supported backend logic.

Unikaksha Pvt Ltd 05/2023 – 10/2023
Trainee – Full Stack Development
- Completed structured training in frontend and backend technologies.
- Developed web applications and API integrations.

Bhagyesh Engineering Works 09/2021 – 04/2023
Production Engineer
- Improved manufacturing efficiency using data-driven analysis.
- Reduced defects and optimized production workflows.
- Coordinated quality control and production planning.

PROJECTS

LaunchPilot AI — Autonomous Full-Stack Architecture & Code Synthesis Engine 10/2026 – Present

Live App: **launchpilot-ai-chi.vercel.app** | Code: **github.com/ShreeyashK99/launchpilot-ai**

- Engineered full-stack SaaS engine via Vibe Coding & Agentic development, turning product specifications into Next.js 15 App Routes, typed Zod validation schemas, and Supabase PostgreSQL Row-Level Security (RLS) migrations.
- Verified with automated 12/12 integration test suite and deployed live to production on Vercel.

Generative AI ChatBot 08/2025 – 10/2025

- Contributed to development of an AI-based platform integrating multiple AI tools.
- Assisted in API integration and AI feature implementation.
- Worked on prompt structuring and application workflow.

Data Analysis Projects — Customer Behavior & Healthcare Data Analysis 08/2025 – 10/2025

- Performed EDA using SQL and Python to identify trends and patterns.
- Cleaned and structured datasets for accurate analysis.
- Generated actionable insights from customer and healthcare data.

Employee Attrition Dashboard — Power BI Project 08/2025 – 10/2025

- Built interactive dashboard to analyze resignation trends.
- Identified key factors influencing employee attrition.
- Designed KPI-based reports for workforce monitoring.

Machine Learning Model — ML Classification Model 08/2025 – 10/2025

- Developed predictive classification model using Python and scikit-learn.
- Performed feature engineering and evaluated model performance.
- Improved prediction accuracy through data preprocessing.

EDUCATION

Master's in Data Science and Data Analytics with Generative AI 04/2025 – 10/2025
TOPMENTOR

Bachelor's in Mechanical Engineering 06/2018 – 08/2021
University of Mumbai | CGPA: 7.86
* German Anabin Database: H+ Status (Recognized equivalent for German Chancenkarte / EU Blue Card).

Diploma in Mechanical Engineering 06/2015 – 06/2018
Maharashtra State Board of Technical Education | 75%

Secondary School Certificate 06/2014 – 05/2015
Maharashtra State Board | 88.20%

LANGUAGES

• English • Hindi • Marathi
