✈️ **Open to Global Relocation & Visa Sponsorship**

PROFESSIONAL SUMMARY & ENGINEERING PHILOSOPHY

AI & Software Engineer with **3+ years of cross-functional engineering experience** spanning production engineering, full-stack development, and data analytics, specializing in **Generative AI, Autonomous Agentic Workflows, and Data Science**. Operates on the cutting-edge **AI-Native / Vibe Coding** paradigm—orchestrating autonomous AI coding agents (Claude 3.5 Sonnet, Cursor, Antigravity) to rapidly architect, test, and ship production web applications and automation systems at 5–10x traditional velocity. Backed by mechanical engineering rigor, strict TypeScript typing, runtime Zod validation, Supabase Row-Level Security (RLS), and automated integration suites. B.E. graduate from the University of Mumbai (Anabin H+ accredited, eligible for German Chancenkarte / EU Blue Card and global visa sponsorship).

TECHNICAL SKILLS & SPECIALIZED ARSENAL

AI, GenAI & Agents:	Generative AI & LLM Integration (OpenAI API, Claude 3.5 Sonnet), Agentic Workflows, LangChain, LlamaIndex, Model Context Protocol (MCP), Prompt Engineering, Fine-Tuning, NLP
Vibe Coding / Velocity:	Agentic Prompt Choreography, Cursor AI, Claude 3.5 Sonnet, Antigravity, OpenCode Gateway, Fast Autonomous Loops
Full-Stack & Frontend:	Next.js 15 (App Router, Server Components), React 19, TypeScript 5.6, JavaScript (ES6+), Tailwind CSS 3.4, Framer Motion, HTML5, CSS3
Backend & Databases:	Supabase (PostgreSQL, Multi-Tenant RLS Policies), FastAPI, Node.js, Express, RESTful APIs, Zod Runtime Validation, Redis
Data Science & ML:	Python (Pandas, NumPy, scikit-learn), Data Preprocessing, Feature Engineering, Model Evaluation, Exploratory Data Analysis (EDA)
Data Analysis & Viz:	Power BI (Interactive KPI Dashboards), Tableau, Microsoft Excel, Matplotlib, Seaborn, SQL (PostgreSQL, MySQL)
DevOps & Cloud Tools:	Vercel Edge Deployment, Cloudflare Pages & Workers, Git & GitHub, Docker, Automated Integration Test Suites, n8n Automation

FEATURED PRODUCTION PROJECTS

LaunchPilot AI — Autonomous Full-Stack Architecture & Code Synthesis Engine — Oct 2026 – Present

Live App: launchpilot-ai-chi.vercel.app | Code: github.com/ShreeyashK99/launchpilot-ai

- **Architecture & Build:** Built and shipped a production Next.js 15 full-stack application using agentic vibe coding that turns high-level specs into production Next.js App Routes, Zod schemas, and Supabase PostgreSQL RLS migrations in <250ms.
- **Dual-Mode Engine:** Engineered an autonomous inference pipeline with OpenCode API gateway integration and a local semantic synthesis engine for resilient zero-cost offline code generation.
- **Enterprise Verification:** Built an automated 12/12 integration test suite validating edge execution, schema syntax, and multi-tenant security guardrails prior to continuous deployment on Vercel.

Generative AI ChatBot & Hamari AI Platform — 08/2025 – 10/2025

- Contributed to development of an AI-based platform integrating multiple AI tools, assisting in API integration and AI feature implementation.
- Engineered prompt structuring and application workflows; integrated AI APIs for chat, speech-to-text, and automated document synthesis.

Customer Behavior & Healthcare Data Analysis (EDA) — 08/2025 – 10/2025

- Performed in-depth Exploratory Data Analysis (EDA) using SQL and Python to identify trends and patterns across customer and healthcare datasets.
- Cleaned and structured complex raw data to improve analytics accuracy and generated actionable insights for operational decision-making.

Employee Attrition Dashboard (Power BI) — 08/2025 – 10/2025

- Built interactive Power BI dashboards to analyze employee resignation trends and identified key factors influencing organizational attrition.
- Designed dynamic KPI-based reports for executive workforce monitoring and proactive retention planning.

Machine Learning Classification Model — 08/2025 – 10/2025

- Developed predictive classification models using Python and scikit-learn to solve multi-class categorization problems.
- Performed end-to-end feature engineering, data preprocessing, and model performance evaluation to maximize prediction accuracy.

PROFESSIONAL WORK EXPERIENCE

Hey Concrete 05/2026 – 07/2026 | Mumbai, India
Technical Executive

- Supported AI tool implementation across HR, Accounts, Sales, Social Media, Graphics, and Content departments.
- Assisted in development and testing of an autonomous AI Complaint Management System using LLM tool-calling, slashing support ticket turnaround by 45%.
- Contributed to the **HeyOne.Ai** unified platform to integrate AI tools for employee productivity and operational workflow automation.

Access Million 04/2025 – 10/2025 | Mumbai, India
Data Analyst Intern

- Analyzed business and customer data using SQL, Excel, and Python (Pandas/NumPy), cleaning and transforming datasets to improve reporting accuracy.
- Built interactive Power BI dashboards to track business KPIs and performance trends; delivered actionable insights to support data-driven decision-making.

Codeshastra Pvt Ltd 10/2023 – 04/2024 | Mumbai, India
Full Stack Developer Intern

- Contributed to the development of **"Hamari AI"**, an intelligent AI tools platform.
- Integrated AI APIs for chat, speech-to-text, and automation features; built responsive UI in React and supported backend server logic.

Unikaksha Pvt Ltd 05/2023 – 10/2023 | Mumbai, India
Trainee – Full Stack Development

- Completed intensive structured training in full-stack frontend and backend technologies.
- Developed full-stack web applications and integrated RESTful APIs with client-side user interfaces.

Bhagyesh Engineering Works 09/2021 – 04/2023 | Maharashtra, India
Production Engineer

- Improved manufacturing efficiency and cut defect rates by 18% using data-driven root-cause analysis and Statistical Process Control (SPC).
- Coordinated quality control inspection protocols, assembly line scheduling, and cross-functional production planning.

EDUCATION & FORMAL QUALIFICATIONS

Master's in Data Science, Data Analytics with GenAI 04/2025 – 10/2025
TOPMENTOR
Advanced specialization in Generative AI, LLM systems, Machine Learning, and Big Data Analytics.

Bachelor's in Mechanical Engineering (B.E.) 06/2018 – 08/2021
University of Mumbai | CGPA: 7.86 (First Class)
* German Anabin Database: H+ Fully Recognized (EU Blue Card / Chancenkarte eligible).

Diploma in Mechanical Engineering 06/2015 – 06/2018
Maharashtra State Board of Technical Education (MSBTE) | 75.00%

Secondary School Certificate (SSC) 06/2014 – 05/2015
Maharashtra State Board | 88.20% (Distinction)

LANGUAGES

English (Professional Working Proficiency) • **Hindi** (Native / Bilingual) • **Marathi** (Native / Bilingual)
